EDUCATION

Simon Fraser University   2018 - 2023
Bachelor Degree in Computer Science

WORK EXPERIENCE

Back-end Developer Intern at DLS-Global KZ   **April 2024 - August 2024**
- Improved query processing times by 30% by developing user authentication and data storage systems using **Django** and **PostgreSQL**.
- Collaborated with other developers to use **Jira** and **Docker's** virtual environment to ensure seamless sharing of content.
- Overhauled and optimized a legacy codebase, resolving 25+ critical bugs and boosting application performance by 18%, ensuring a more stable and reliable system.

Web Developer Intern at Mani Wonders   **January 2023 - May 2023**
- Collaborated with Agile teams to maintain and enhance website functionality, ensuring a seamless user experience.
- • Developed and styled web pages using **HTML, CSS**, and **JavaScript**, contributing to a 15% faster load time and 10% improved site responsiveness.
- Utilized JSON format to efficiently transmit data between the **MySQL** database and the front-end, reducing data processing time by 15% and ensuring seamless integration, which improved overall user interaction by 10%.
- Diagnosed and resolved 50+ bugs in existing code under the guidance of senior developers, leading to more stable and efficient web applications with a 17% improvement in system uptime.

PROJECTS

RPG Character Generator System
- Create a server-client system for generating random characters and their stats, storing them in the database and using a multiplayer function to fight other users.
- Technologies used: **MongoDB**, **Bash**, **Python**
- https://www.youtube.com/watch?v=-CWpdxkoOmQ

Personal Portfolio-Gallery Website
- Create a portfolio website showcasing my skills as a programmer as well as showing my interest and hobbies
- Technologies used: **HTML**, **CSS**, **Javascript**, **Bootstrap**
- https://github.com/AK-csr/portfolio

SKILLS & INTERESTS

- **Programming Languages:** Python, C++, Javascript, Java
- **Skills:** Back-End Development, Database Management (SQL), QA Testing, MS Office Suite, Visual Studio , Jira
- **Languages:** English, Russian
